

1. Answer the following

i. What are animals?

ii. Give uses of different animals.

iii. What is the classification of animals on the basis of their backbone?

iv. What are warm-blooded animals?

v. What are cold-blooded animals?

vi. What are herbivores?

2. Long question

i. Write a note on five major groups of vertebrates.

Mammals	Birds	Reptiles	Amphibians	Fish

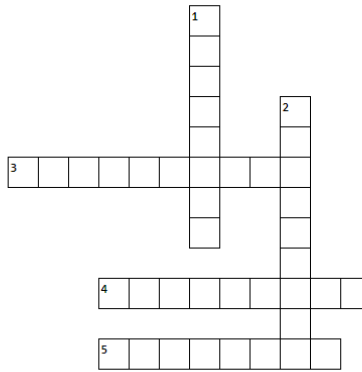

3. Tick the right option.

1. What is a defining feature of vertebrates?			
I. They have a backbone	II. They do not have a backbone	III. They can fly	IV. They are cold-blooded
2. Which of the following is a wild animal?			
I. Cat	II. Dog	III. Horse	IV. Lion
3. What do we call animals without a backbone?			
I. Reptiles	II. Amphibians	III. Vertebrates	IV. Invertebrates
4. Which of these animals is a reptile?			
I. Dolphin	II. Snake	III. Penguin	IV. Monkey
5. Which group of animals can live both in water and on land?			
I. Birds	II. Mammals	III. Amphibians	IV. Reptiles

4. Fill ups

- i. The place where an animal lives is called its _____.
- ii. Animals that are kept by humans are called _____ animals.
- iii. Animals that live in forests are called _____ animals.
- iv. _____ provide honey.
- v. Humans are _____.

4. Crosswords

Across	Down
3. That feed on dead organic matter	1. That eat both plants and animals
4. That eat meat	2. That eat plants
5. That prepare their own food	

5. Words Search

Find the following word in the words search.

Scales	Feather	Honey	Wool	Aquatic
--------	---------	-------	------	---------

S	C	A	L	E	S	L	T	D	R	N
K	M	O	L	E	C	U	L	E	R	I
B	T	E	A	F	H	I	N	O	X	T
G	O	O	U	E	C	E	L	X	B	R
P	A	Q	U	A	T	I	C	R	U	O
O	L	I	U	T	H	E	L	I	X	G
V	A	R	I	H	T	I	O	B	E	E
E	H	O	N	E	Y	L	E	O	R	N
C	M	B	T	R	W	O	O	L	A	O
D	B	N	P	O	U	Y	N	E	N	U
P	H	O	S	P	H	A	T	E	M	S

6. Jumbled Words

- | | |
|---------------------|-----------------------|
| i. Idwi _____ | ii. serpodecom _____ |
| iii. mesticlo _____ | iv. malmam _____ |
| v. vorbiher _____ | vi. tilerep _____ |
| vii. vornicar _____ | viii. bianphiam _____ |
| ix. vorniom _____ | x. ratetebver _____ |

7. Columns

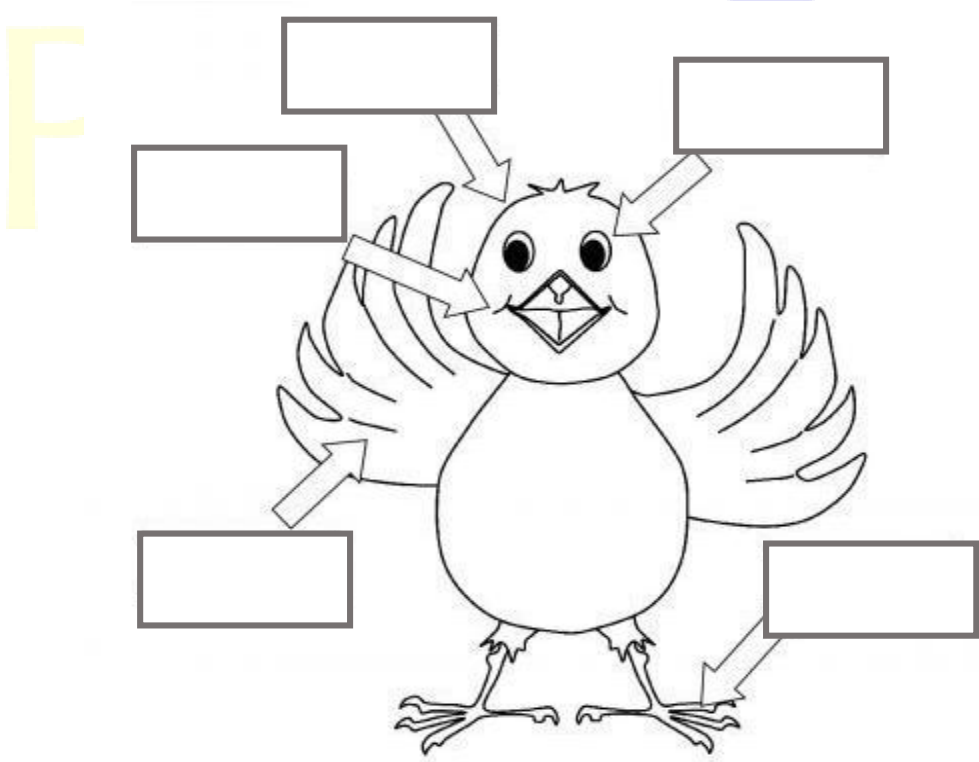

A	B
Aquatic ●	● Bear
Horse ●	● Crab
Omnivore ●	● Foal
Octopus ●	● Cold-Blooded
Amphibians ●	● Invertebrate

8. Write “T” for the true and “F” for the false statement.

- i. Mammals nourish their babies with milk.
- ii. Invertebrates have backbone
- iii. Humans are cold-blooded.
- iv. Reptiles have scaly bodies.
- v. Fish is an aquatic animals.

9. Label the diagram.

Parts of the body of a bird

10. Drag and Drop

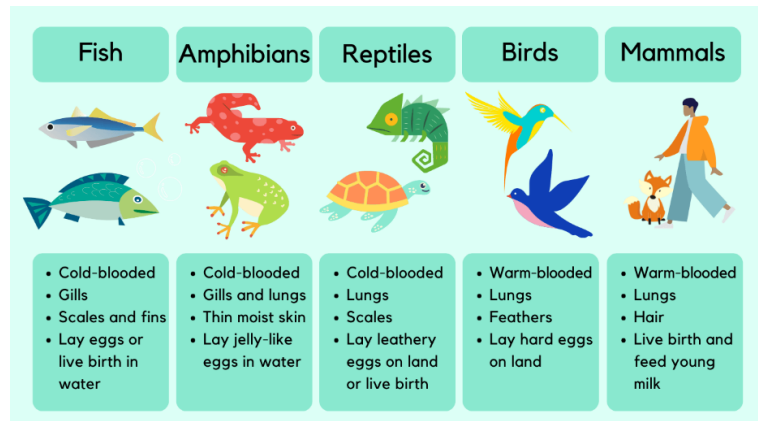

Look at the pictures and write their names in the relevant column.

				
Cat	Dog	Frog	Butterfly	Horse
				
Kitten	Puppy	Toad	Caterpillar	Foal

Animal	Baby

11. Comprehension

Answer the following questions after reading the paragraph and observe the picture carefully.

There are five major groups of animals, each with its own unique characteristics. First, we have mammals, which are warm-blooded and usually have fur or hair. They give birth to babies and often nurse them with milk. Examples include dogs, cats, and humans. Birds make up a different group known for their feathers, beaks, and ability to fly. They lay eggs, and some, like penguins, are great swimmers. Reptiles, such as snakes and turtles, have scales and lay eggs on land. They are known for their diverse shapes and sizes. Amphibians, like frogs and salamanders, can live both in water and on land. They usually start as tadpoles in water and undergo a transformation into adults. Fish, the fifth group, live underwater and breathe through gills. They come in various shapes and sizes, from tiny guppies to large sharks.

i. **Why birds make a different group?**

ii. **Where amphibians live?**

iii. **Where the fifth group of animals live?**
